Dear Students,

Education has been a part of your lives from the day you were born. Each individual is unique and there are many characteristics and skills that make you who you are. The key point is to bring out such characteristics and skills. In the new world order, technology has improved, the ways of reaching information has changed, new occupations have come to light, and the value of arts, sports, self-improvement and cultural interactions have become more appreciated. Within this respect, needs and expectations have also changed in parallel to the changes in societies. You will be shaping your future in accordance with such changes in life. Today, you are at an important turning point in your lives. The decision you are about to make will act as a significant means on your journey towards reaching your goals in life. You should feel that you are getting closer to your goals in every step you take. It is of great importance for you to find an occupation that unveils the characteristics which make you who you are, that enables you to make your wishes come true and lastly, an occupation that you will feel happy with and at your best.

You should benefit from the opportunities offered to you by getting a good quality education, being familiar with the necessities of multi-cultural systems, being engaged in activities which play an important role in your personal development, being interested in arts and sports and making new friends in a multi-national environment before setting off for new horizons.

Eastern Mediterranean University is the first state university in the Turkish Republic of Northern Cyprus (TRNC). With its excellent infrastructure, qualified academic staff, English and Turkish medium programs, student exchange programs and, various sports, social and cultural events, EMU offers you a huge opportunity for your career planning. EMU has taught me many things but the most important lesson that has stayed with me is the realization of the beauty of diversity, being able to see and interact with seeing people from all many different cultural backgrounds, religions, and ethnicities. Making friendships from all over the world for the past two years made me realize that as humans we are much more similar than we are different. It has taught me the essence of humanity.

My name is Maya Hunter, and I am an exchange student from Eastern Illinois University in Charleston, Illinois. I first heard about the exchange program by chance when I came across with an Eastern Illinois student, I met just as I was returning from studying abroad in Izmir, Turkey. I knew I wanted to come to Eastern Mediterranean University from then on, because I love the Turkish language, history and culture. I decided to do a research project while I was studying here. And so, I wrote an undergraduate thesis on the connection between my two favorite subjects (and my double majors) foreign language and international relations. While gathering data for my thesis and attending my classes on campus, I had chance to meet so many incredible people and learn so much about the fascinating history of this island. I really appreciated the EMU Student Exchange Office for giving me these opportunities.
