THE IDEAL SYSTEM OF GOVERNMENT FOR THE TRNC DISCUSSED AT A WORKSHOP

Eastern Mediterranean University (EMU) Faculty of Business and Economics and the Dr. Fazıl Küçük Foundation hosted the first workshop in the Turkish Republic of Northern Cyprus (TRNC) to discuss the best system of government. The opening ceremony of the "Ideal System of Government for the TRNC, Presidential System and Parliamentary System Debate" workshop took place on Friday, the 4th of May 2018 at Kyrenia Oscar Hotel at 10:00. Present at the highly attended workshop were top government representatives as well as Cypriot and foreign academicians. The workshop commenced with the national anthem, a moment of silence and opening speeches.

"Firstly The System Must Be Improved"

In her opening speech, Former TRNC Parliamentary Speaker and Dr. Fazıl Küçük Foundation Honorary President Dr. Sibel Siber noted that the workshop aims

to raise for discussion the problems of the current system whilst comparing it with alternative models with the goal of forming opinions about the best model for the country.

Speaking at the opening of the workshop, EMU Rector Prof. Dr. Necdet Osam stated that the current system has its flaws but it is up to them to try and improve the system, before changing it. Prof. Dr. Osam indicated that EMU will do its part based on its vision and mission.

EMU Faculty of Business and Economics Vice Dean Assoc. Prof. Dr. Deniz İşçi-oğlu drew attention to the workshop aiming to create a more stable government system, public administration structure and stronger local governments.

"The Biggest Problem is Patronage"

In his opening speech, TRNC Parliamentary Speaker Teberrüken Uluçay stated that the economic and political state of

the TRNC will shed light on future governmental system discussions.

TRNC Prime Minister Tufan Erhürman noted that the country's biggest problem is patronage indicating that this problem which is reflected in culture must be eradicated.

TRNC Minister of Education and Culture Cemal Özyiğit stated that all of these systems can be discussed but that everyone is informed about coalescence of laws and implementation.

Minister of Finance Serdar Denktaş stated that he has always been one to support the presidential system, indicating that as a community we are familiar with this system as it has been used before.

At meetings held with the participation of leading political scientists, public administrators, new and former politicians, party representatives, representatives of non-governmental organizations, experts, media representatives and intellectuals, the following issues were covered: "What are the problems of the current parliamentary system?", "Is it possible for the current parliamentary system to reach a productive structure?", "Would the presidential system be appropriate for the TRNC?" and "What are its advantages and disadvantages?"

Not Small, but Very Important and Big Reforms are Necessary.

A large part of the participants stated that

it would be appropriate to restructure the existing system with big and comprehensive reforms or to undergo a radical system change to the presidential system in order to overcome the problems. Participants also agreed that it is no longer sustainable to continue with the existing structure.

Those Who Support the Presidential System Pointed to Stability

Participants who advocate system change and present the Presidential System as an alternative model in stated that it would help overcome the bottlenecks in the political system in the TRNC, reduce poor management, improve of accountability and predictability, reduce nepotism and lack of merit reduction, allow more time to be spent on primary affairs by the lawmakers of the legislature, ensure that the executive is able to make quicker decisions under the management of the elected president, emphasizing that the Presidential System could be an important tool for achieving political stability. On the other hand, instead of changing the system directly in the workshop, those who declared their opinion at the point of improvement of the existing parliamentary system, the constitution, the legislature, the executive, the judiciary and the separation of the

strict powers, the electoral system and the political party law pointed out that very serious reforms are required.

Closing Presentation by Assoc. Prof. Dr. Deniz İşçiöğlü

After the completion of the workshop and the preparation of the final report, Assoc. Prof. Dr. Deniz İşçiöğlü shared the text that emerged from all the tables with the public. Assoc. Dr. İşçiöğlü asserted that an extensive report on the workshop will be completed in the near future, and immediately after the preparation of the report, the full conclusion report will be presented to the public through a press conference.

Dr. Sibel Siber Delivered the Closing Speech of the Workshop

Dr. Sibel Siber, who is the Honorary President of Fazıl Küçük Foundation, delivered the closing speech of the event. While Sibel Siber conveyed her endless gratitude, she also stated that the results indicate that the current system is out of sustainability. Besides expressing her conviction that decision-makers should take these steps carefully and take the necessary steps to open the way for the Turkish Cypriot people, she also underlined that the country does not have any luxury for losing time.

19 MAY STATEMENT

19 May 1919 is the first day of national sovereignty. On this day, the first steps towards establishing the Republic of Turkey were taken. This is a day when a nation showed determination to exist despite vast absence. When Atatürk stepped foot on Samsun our National Independence Struggle Action Phase begun.

Atatürk's monumental work Nutuk firstly summarized his decision and the piteous situation of the Ottoman

Empire when he arrived in Samsun on the 19 May 1919. Along with the nation, despite all difficulties Atatürk managed to save the country from imperialistic occupying forces and carry out reforms to establish a modern Republic of Turkey which he describes as his most important work.

Great Leader Mustafa Kemal Atatürk entrusts the Republic to Turkish youth and explains how they will

protect it in his Address to Turkish Youth. Mustafa Kemal Atatürk emphasizes the importance he shows to this day by saying "19 May is my birthday". We are thankful and commemorate Atatürk, his fellow fighters and all martyrs who died to make this land our country. I wish you a happy 19 May Commemoration of Atatürk Youth and Sports Day.

THE 'INTERNATIONAL CONFERENCE ON CLEAN ENERGY' HOSTED BY EMU

Özdil Nami

Prof. Dr. Necdet Osam

Ahmet Hüdaoğlu

Prof. Dr. Hongtan Liu

'16th International Conference on Clean Energy' organized by the collaboration of Eastern Mediterranean University (EMU) Energy Research Center (ERC) and Clean Energy Research Institute (CERI) of Miami University commenced with an opening ceremony in Salamis Bay Conti Resort Hotel on Wednesday, the 9th of May, 2018 at 09:00.

During the opening ceremony of 3-day conference which continued until the 11th of May, EMU Engineering Faculty academic staff member and head of EMU Energy Research Center Prof. Dr. Uğur Atikol emphasized the increasing population in the world and correspondingly, the increasing need for energy. Stating the increasing number of problems regarding the climate changes which threaten the sustainability of life, Prof. Dr. Atikol explained the primary reason of the matter as the accumulation of greenhouse gases in the atmosphere due to the infertile use of fossil fuels. As Prof. Dr. Atikol mentioned, the temperatures in the world is gradually increasing day by day and there are many technologies that can be used to reduce the global warming, but revolutionary structural changes are needed in order to use such technologies.

It's Vital to Have a Usable Solar Energy System

Expressing his pleasure to be in EMU, Prof. Dr. Ziya Arnavut Chair of Computer and Information Sciences Department on Fredonia New York State University

Prof. Dr. Ziya Arnavut

mentioned the high cost of electricity in Cyprus even though the island has a sun-drenched climate throughout 365 days. Prof. Dr. Arnavut touched on the importance of having a useable solar energy system and stated his belief on the conference to play a significant role on finding a new and clean energy source for Cyprus.

Clean Energy Research Institute Director Hongtan Liu from Miami University made a speech during the opening ceremony and thanked everyone who have contributed during the process. During his speech, Liu shared a message from Prof. Dr. Nejat Veziroğlu, the Founding Chairman of Miami University Clean Energy Research Institute and also the

Prof. Dr. Uğur Atikol

Honorary President of 'International Conference on Clean Energy'. Providing information about the Institute, Prof. Dr. Liu also wished a fruitful conference as well.

EMU Rector Prof. Dr. Necdet Osam thanked everyone for their participation and laid emphasis on his faith regarding the conference to lead better energy use in Cyprus. Stating his belief on using solar energy in Cyprus is applicable, Prof. Dr. Necdet Osam notified that he believes the conference will result in beneficial outcomes.

Importance to Economise the Redundantly Used Energy

Turkish Cypriot Electricity Authority Chairman of the Executive Board Ahmet Hüdaoğlu stated that the energy need of 8 billion population in the world has reached a point where it can be met with nuclear energy. Saying that the request for renewable energy has also arose with the need for nuclear energy, Hüdaoğlu mentioned the importance of finding an appropriate energy to satisfy the 8 million population. Being on the fence between two matters, when one looks from a professional standpoint electricity should be provided to the society on any ground, on the other hand, the other half suggests not using energy which harms the environment. Emphasizing the economizing the redundantly used energy, Hüdaoğlu stated that the energy to be produced shall be in the form of renewable energy to the greatest extent possible and the amount left shall be produced in the form in which it would not pose a threat against the environment. Hüdaoğlu ended his speech by saying that the outcomes of the conference will play a significant role looking ahead and wished a successful conference.

Dr. Petra Belle

Cyprus is an Appropriate Spot for Solar Energy Use

Turkish Republic of Northern Cyprus (TRNC) Minister of Economy and Energy, Özdil Nami also made a speech during the opening ceremony and expressed his pleasure to be a part of an important international conference held in EMU. Nami indicated the importance and success of hosting such a conference in TRNC. Likewise all the other previous speakers, Nami also found Cyprus as an appropriate country to use solar energy. Explaining the lack of technologies to store the solar energy as a reason for the underuse of solar energy, Minister Nami touched on the government's objective which is to connecting the network to a bigger one. A suggestion is to use solar energy in Cyprus during day time and using the energy coming from Turkey at night time. Nami added that with the new system there will be an opportunity to produce more energy, to renew country's own energy production system, to modernize the existing distribution systems in order to obtain more effective and safer systems and lastly, to have a more competitive economy within a cleaner environment.

Following the opening speeches, Dr. Petra Belle from Munich Technical University made the presentation titled "Fuel Cells – From Fundamentals to System". A panel on "Energy Approaches for Sustainable Development" took place with the participation of Prof. Dr. Mohammad Shahidehpour, Prof. Dr. Steffen Lehmann, Prof. Dr. Reinhard Haas, Prof. Dr. Ramazan Sari, Dr. Petra Belle and Dr. Amela Ajajovic on Thursday, the 10th of May, 2018 at 13:30.

EMU-SCT RECEIVES ASIIN ACCREDITATION FOR THE SECOND TIME

The 4-year Eastern Mediterranean University (EMU), School of Computing and Technology (SCT) Information Technology undergraduate program has been re-accredited for the longest period of time by ASIIN (Germany).

After a successful inspection period last year it was initially decided that the IT program would be accredited for a second time for a period of one year. Following highly affirmative reports and responses, the accreditation was extended for the second time for the longest period of time. A Euro-Inf Label quality certificate was also received.

Breaking new ground in our country, EMU-SCT had managed to receive accreditation for its 13 other programs in addition to IT. Obtaining all European Union based accreditations EMU-SCT is proud to be offering a European standard education. EMU-SCT also broke new ground at postgraduate level earning a Euro-Inf quality certificate. With the new accreditations, SCT has raised its number of accredited programs to 13.

EMU School of Computing and Technology's Construction Technology (2 and 3-year programs), Electrical and Electro-

nic Technology (2 and 3-year programs), Computer Programming (2 and 3-year programs), Biomedical Equipment Technology (2 and 3-year programs) and Mapping and Cadastral Technology (2-year program) programs were formerly accredited.

Putting forth that accreditation is the process of reaching certain standards set up and measured by third parties EMU-SCT Director Prof. Dr. Mustafa İlkan, stated that their school boasts accreditations recognized by 28 European Union countries. Prof. Dr. İlkan further stated that

accreditations are proof of the educational quality of any institution. Indicating that vocational education is at the highest level in Germany, Prof. Dr. İlkan highlighted that SCT's FIBAA and ASIIN accreditations are from German based institutions.

Prof. Dr. İlkan concluded by stating that the IT program's ASIIN accreditation allows graduates free movement around the world, especially Europe highlighting that their education quality has been certified with the Euro-Inf Label delivered by EQAINE.

EMU HONOURED ITS 25th YEAR GRADUATES

"25th Year Graduates' Commendation Ceremony" organized by Eastern Mediterranean University (EMU) Alumni Communication and Career Research Directorate (MIKA) took place on Friday, 18 May 2018 at 17:00 in Emu Rector's Office Senate Hall. The event that brought all the 1993 graduates together was attended by EMU Rector Prof. Dr. Necdet Osam, Vice Rector for International Affairs and Promotion Prof. Dr. Cem Tanova, EMU-MIKA Director Derviş Ekşici, many of EMU 1993 graduates and their loved ones. The event commenced with an introductory film about EMU followed by the graduate speeches.

"It's a Privilege to Be a Member of EMU"

1993 graduates Civil Engineering Department graduate Şebnem Özal, Business Department graduates Ersun Kutup, Arzu Yılmazbaşar and Ülker Tek took a pride in being EMU graduates by stating that the university has given them a lot with its international atmosphere and the successful academic staff. Moreover, the graduates expressed their feelings on how EMU helped them on their success journeys as well as their happiness regarding being a member of EMU family. Electrical and Electronic Engineering Department graduate Kenan Akseki's mother Semra Akseki shared her feelings about EMU by saying that her son is always proud to be a graduate of EMU, an international university around the world and added that the education her son received at EMU has played a significant role on his professional life.

"I Wish You a Successful Career"

During his speech in the 1993 Graduates event, EMU Rector Prof. Dr. Necdet Osam mentioned how EMU has come a long way during these 25 years by saying; "I was a young academician in EMU when you were students in our university. Therefore, I was going through same things with you as an

instructor. EMU's primary goal was to integrate people with the outer world by raising quality individuals. Our university has raised precious students as you are, has helped you integrate with the outer world and therefore, created an environment for you where you benefitted the most and as a result, you took the necessary steps to be successful. With our quality education offered in our university, we have managed to be ranked in world lists within the last 3 years. Today, no other universities in the Turkish Republic of North Cyprus (TRNC) are on these lists. Another important point is our QS Stars. Our university has received 5 and 4 stars in terms of Quality Stars. We thank all our graduates who are here with us today and wish you a successful career".

INTERNATIONAL STUDENT EVALUATION PROGRAM "PISA" DISCUSSED IN EMU

Organised by Eastern Mediterranean University (EMU) Faculty of Education, Turkish and Social Sciences Teacher Education Department, a panel titled "A Critical Outlook in PISA Results from the Window of Reading Comprehension" was held in Mustafa Afşin Ersoy Hall. The opening speech was delivered by EMU Education Faculty Dean Prof. Dr. Ülker Vancı Osam and the panel was moderated by EMU Turkish and Social Sciences Teacher Education Department Chair Prof. Dr. Ahmet Pehlivan. The speakers at the said panel were Assoc. Prof. Dr. Nihat Bayat from Akdeniz University, Faculty of Education, Department of Elementary Education, Assoc. Prof. Dr. İbrahim Seçkin Aydın from Dokuz Eylül University, Faculty of Education, Department of Turkish Language Education and Assistant Prof. Dr. Gizem Uyumaz from Giresun University, Faculty of Education, Department of Educational Sciences, Measurement and Evaluation Program.

Assoc. Prof. Dr. Nihat Bayat first provided information on what PISA is and its assessment areas and then touched upon the place of Turkey in PISA. According to the results obtained, Turkey has a lower average when compared to the averages of OECD and all other countries. According to the findings of research participated by 72 countries in 2015, Turkey ranked 50th in the reading section of PISA evaluation. Assoc. Prof. Dr. Nihat Bayat indicated that

the proficiency levels of Turkish students belonging to the 15-year-old group were lower than the reading levels of others. Assoc. Prof. Dr. Bayat ended his presentation by addressing the key areas of reading in "PISA" and elements considered in PISA when evaluating reading materials.

Assoc. Prof. Dr. İbrahim Seçkin Aydın discussed PISA in terms of Turkish Education Programs. Assoc. Prof. Dr. Aydın specified that the educational approaches in teaching and learning Turkish consist of two main methods, generally named as Behaviorist and Constructivist. The Ministry of National Education has developed a program which advocates the concept of "Constructivist Approach" by putting an end to behaviorist practices in 2005, and emphasizing those lower and upper skills besides language skills are also primary issues according to this understanding. Assoc. Prof. Dr. Aydın also added that when the achievements related to reading field levels in PISA are compared with the ones in Turkish language program, the gains in Turkish language programs stay below the PISA expectations and therefore they do not meet the PISA criteria.

Assoc. Prof. Dr. Gizem Uyumaz evaluated PISA test's format and design in terms of assessment and evaluation of applications and compared them with the similar exam applications in Turkey. After the questions addressed by the students at the end

of the interview were answered by Prof. Assoc. Dr. Gizem Uyumaz, she touched briefly upon the subjects including the item formats used in PISA applications, her qualification levels, and her assessment

of reading skills. The panel which was received with great interest ended with the distribution of certificates of appreciation to the participants.

JOINT MESSAGE AT EMU: "OUR BLOOD WILL GIVE LIFE TO PALESTINE"

Eastern Mediterranean University's (EMU) Palestinian Student Society gathered in front of the EMU Rector's Office on Tuesday, the 15th of May 2018 to protest the violence taking place in Gaza and provide emotional support to their country with the slogan "Our Blood Will Give Life to Palestine". The Palestinian students came together to condemn the killing of at least 60 civilians in Gaza who were demonstrating against the American Embassy in Tel Aviv being moved to the holy city of Jerusalem. In addition, thousands of civilians were injured by Israeli soldiers. The Palestinian students gathered around a giant Palestinian flag shouting slogans and handing out brochures reading "Stop Trump, Jerusalem is Palestine's Capital."

The said massacre is being described as Israel's most bloody attack since 2014. According to the statements of Palestinian state representatives, in addition to

those killed there are approximately 2,700 people left injured after Monday's attack. Following the protest, many students travelled to the Famagusta State Hospital where they symbolically donated blood.

24th EMU Spring Festival Cancelled

EMU Rector Prof. Dr. Necdet Osam attended the protest outside the EMU Rector's Office where he also delivered a speech. Stating that such events are unacceptable in today's civilized world, Prof. Dr. Osam indicated that what happened in Gaza is a crime against humanity. Stating that this is a religious and ethnic massacre Prof. Dr. Osam stated that the Pope should not stay silent to the events that were escalated by the United States of America's (USA) decision to move its embassy from Tel Aviv to Jerusalem. It was decided that the 24th EMU Spring Festival would be cancelled because of the terrible events in Gaza.

EMU TOURISM FACULTY HOSTS YOUNGEST MICHELIN STAR AWARDED BRITISH CHEF TOM AIKENS

The Eastern Mediterranean University (EMU) Faculty of Tourism, Department of Gastronomy and Culinary Arts hosted world famous chef Tom Aikens who is also the owner of the double Michelin starred restaurant collection Tom's Kitchen. Tom's Kitchen group chef Richard O'Connell was also hosted by the university. The duo came together with students at the Rauf Raif Denktaş Culture and Congress Center where a workshop and talk took place.

EMU Faculty of Tourism Dean Prof. Dr. Hasan Kılıç stated that the Department of Gastronomy and Culinary Arts is carrying out another first by bringing together young chefs and one of their idols; Tom's Kitchen owner and chef Tom Aikens.

Prof. Dr. Kılıç indicated that 2 students have started working at Tom's Kitchen as a result of their hard work and desire to learn during their internship period at the restaurant. Another student has also received a job offer. Prof. Dr. Kılıç noted that he is proud to see the students working at such an important restaurant chain right after their graduation, stating that they are beginning to reap the rewards of their good education. Prof. Dr. Kılıç relayed that during the two days Tom Aikens and Richard O'Connell stayed on the island, they visited historical monuments and touristic destinations, also trying Cypriot cuisine.

Speaking during the workshop, Aikens stated that he helped his mum in the kitchen when he was six years old, expressing his belief that this played an important part in his development as a chef: "After cakes and deserts, I started cooking main courses. I enrolled in catering college at the age of 12. I received an education there for two years. After graduating I worked in

some of England's best restaurants." Chef Aikens indicated that he worked in David Cavalier's Michelin starred restaurant in Battersea, London and Pierre Koffman's restaurant in Chelsea, London. He also worked in La Tante Claire which earned its third Michelin star during the period he was working there. Chef Aikens also stated that he worked under Philip Britten and Richard Neat at Capital Hotel as well as at Pied à Terre on Charlotte Street. Aikens is the youngest Michelin Star Awarded British Chef with two stars at the age of 26. In 2003, he opened a restaurant carrying his name in Chelsea. During the workshop Richard O'Connell along with Aikens presented the "Salt Cod Brandade" found on Tom's Kitchen's menu. During the second part of the presentation, Aikens showed how to cut a whole lamb carcass. Answering student questions Tom Aikens stated "If you want to be successful you must have good ideas. You must be very familiar with your market. Never compromise quality. Service and prices must also be considered. You need to concentrate on

what you are doing and make educated guesses based on your instincts about people's expectations. The restaurant industry isn't at all easy. Your team and employees are vital, you must train them well. The combination of many elements will carry you to success."

Visit to EMU Rector Prof. Dr. Necdet Osam

Tom Aikens and Richard O'Connell

visited EMU Rector Prof. Dr. Necdet Osam in his office and indicated that they are very happy to be at EMU. Prof. Dr. Osam highlighted that they will continue to support the Faculty of Tourism, inviting chef Tom Aikens and Richard O'Connell to provide education at the university. At the end of the visit, Prof. Dr. Osam presented the duo a board with traditional Cypriot Lefkara lace.

EMU DONATES ENGLISH TRAFFIC SAFETY THEMED PROJECTS TO YENI ERENKOY PRIMARY SCHOOL

Eastern Mediterranean University (EMU), Faculty of Education, Department of Foreign Language Education ELTE 301/ ELTE 302 Teaching English to Young Learners I and II students donated their traffic safety themed projects and 3 dimensional language learning material made under the counselling of EMU Traffic Education and Research Center President Asst. Prof. Dr. Mehmet M. Kunt to the Yeni Erenköy Primary School operating under the TRNC Ministry of Education and Culture.

EMU Department of Foreign Language Education academic staff member Assoc. Prof. Dr. Naciye Kunt stated that the aim of the joint project carried out with the Traffic Education and Research Center was for children to internalize traffic safety concepts at an early age with lan-

guage acquisition (English). Assoc. Prof. Dr. Kunt indicated that they donated their projects to schools operating under the TRNC Ministry of Education and Culture with the aim of contributing to traffic education. Assoc. Prof. Dr. Kunt highlighted their satisfaction regarding the projects that were met positively by the Yeni Erenköy Primary School Head Mistress, English teacher and students being donated to the school.

Assoc. Prof. Dr. Naciye Kunt and the prospective teachers provided information to the Yeni Erenköy Primary School English teacher about the usage of the projects in class. During an observation trip to the Yeni Erenköy Primary School prospective English teachers gained the opportunity to come together with primary school students in a classroom

environment, adding to their practical experience. The prospective English teachers underlined that with the practical knowledge and motivation gained,

they want to promptly graduate and start sharing Traffic Security knowledge with their own students at schools in the TRNC, Turkey or other regions.

CERTIFICATE CEREMONY "CHILDREN'S TRAFFIC SECURITY AWARENESS" PROJECT TAKES PLACE AT EMU

A certificate ceremony was held for the "Children's Traffic Security Awareness" project jointly organized by Eastern Mediterranean University (EMU) Traffic Education and Research Center and EMU Faculty of Education, Department of Foreign Language Education. The certificate ceremony was attended by Faculty of Education Dean Prof. Dr. Ülker Vancı Osam, Department of Foreign Language Education Chair Assoc. Prof. Dr. Javanshir Shibliyev, Traffic Education and Research Center President Asst. Prof. Dr. Mehmet Metin Kunt, project coordinator Department of Foreign Language Education academic staff member Assoc. Prof. Dr. Naciye Kunt, Department of Foreign Language Education academic staff members Asst. Prof. Dr. Fatoş Erozan and Asst. Prof. Dr. İlkey Gilanlıoğlu as well as students.

"Traffic Education is Inadequate"

Speaking at the opening of the ceremony, EMU Traffic Education and Research Center President Asst. Prof. Dr. Mehmet Metin Kunt touched upon the importance of "Children's Traffic Security Awareness". Asst. Prof. Dr. Kunt stated "Within the scope of this project, Department of Foreign Language Education students prepared traffic safety themed course content and 3 dimensional traffic education materials. According to the World Health Organization (WHO) traffic accidents are one of the world's most common causes of death. One way of decreasing fatal accidents is to internalize traffic safety language in English lessons. We have started this project as the current traffic education in pre-school

and primary school curricula is inadequate."

"We thank everyone for their contributions"

EMU Faculty of Education Dean Prof. Dr. Ülker Vancı Osam stated that information learned at a young age sticks with people throughout their lives, highlighting the importance of the correct timing of the project regarding children's traffic safety awareness. Indicating that the children will grow up with increased awareness Prof. Dr. Osam stated that they will be more responsible in traffic. Prof. Dr. Osam extended her gratitude to Traffic Education and Research Center President Asst. Prof. Dr. Mehmet Kunt and project coordinator Assoc. Prof. Dr. Naciye Kunt. The ceremony ended with a certificate ceremony and cocktail.

INTERVIEWS:

Sibel Soybir

(EMU Faculty of Education, Department of Foreign Language Education, English Language Teaching Undergraduate Program 4th Year Student) I don't like the traffic accidents in Cyprus and this is a big problem because traffic rules are neglected. Learning begins at a young age. Therefore, the things that are learned at a young age become more memorable, especially if they are provided with visuals. The project that we prepared took our time but we enjoyed it a lot. Our students were 8 years old and our topic included traffic rules, colors, and direction concepts. For my future career,

I think we can support these materials which we prepared as well as handouts and videos for reinforcement.

Mustafa Leblebicioğlu

(EMU Faculty of Education, Department of Foreign Language Education, English Language Teaching Undergraduate Program 4th Year Student)

Both for us and for the students themselves the education was very beneficial. Using materials other than books makes itself catchier among the young learners. The subject we taught to the children was the 'Traffic Rules' and thanks to the material we prepared, I was happy that their awareness of the subject increased and that they learned the rules' importance. I do not want to be attached to only the books in my teaching-life. Using a variety of sources in lessons is always catchy and I will use them, as well.

Mehmet Kalaç

(EMU Faculty of Education, Department of Foreign Language Education, English Language Teaching Undergraduate Program 3rd Year Student)

I think this activity was beneficial and eye-catching. Our goal should not provide education based on memorization, but on the contrary, we should make it

visually clear with our materials that we prepared and I believe that we have achieved this. Although we were exhausted during the preparation time of our projects, we had so much fun. Once upon a time we were also children, too. Now, it is our duty to make our materials colorful as teachers. For my future life, I will not teach a simple or just book-based education. Therefore, I think this activity will contribute and help to my lessons which I will prepare in my future life.

Çisil Küçük

(EMU Faculty of Education, Department of Foreign Language Education, English Language Teaching Undergraduate Program 4th Year Student)

Although we had difficulties during the preparation of our lesson planning, we enjoyed a lot in the project preparation stage; I mean the model stage of traffic lamp. I made a traffic light. My aim was to teach the rules and colors. Teaching becomes more memorable when visual materials are used. Because of that, I think we should put ourselves in place of young learners while we are teaching. I will certainly use visual material in the future because it will be boring to stay connected only to the book both for teachers and students.

EMU FACULTY OF TOURISM ORGANIZES TOURISM DAY ACTIVITY

The Eastern Mediterranean University (EMU) Faculty of Tourism held a "Protecting Cultural Heritage" themed Tourism Day. The annual EMU International Tourism Day took place in front of the Faculty of Tourism and featured different music and dance performances.

The opening speech of Tourism Day was delivered by EMU Faculty of Tourism Vice-Dean Assoc. Prof. Dr. Ali Öztüren. Extending his gratitude to everyone who

contributed to the organization of the event Assoc. Prof. Dr. Öztüren stated that tourism resources must be protected and passed down to future generations. Highlighting that cultural heritage should be protected Assoc. Prof. Dr. Öztüren noted that this is important in order to understand our differences and similarities. Indicating that protecting our culture doesn't equate to disrespecting other cultures, Assoc. Prof. Dr. Öztüren underlined that the Tourism Day is an opportunity

to strengthen the relationship between different cultures and celebrate their interaction.

Donations to Syrian and Palestinian Children:

The Tourism Day event which garnered a great deal of attention was organized by EMU Faculty of Tourism academic staff members Asst. Prof. Dr. Nazenin Ruso, Nafia Akdeniz and Turan Değirmencioğlu. The proceeds of stand sales

were used to buy Syrian and Palestinian children shoes, clothes and stationaries. The three stands that generated the most income were presented certificates of achievement. At the stands, EMU Tourism students sold food, posters and promotional items of a country of their choice. The students showed great awareness by preparing everything with their own budget. A musical performance from Kulturel Akbay and his orchestra also took place at the event.

GREAT INTEREST SHOWN TOWARDS "BE A PARTY TO HOPE WITH EMU" CHARITY EVENT

The Eastern Mediterranean University (EMU) organized its annual charity event in aid of children. The first activity of the "Be a party to hope with EMU" project took place outside of the CL Building on Tuesday, the 8th of May 2018 between 10:00-13:00 with the volunteer participation of EMU personnel. Homemade food and beverages were sold at stands set up with the contribution of all EMU faculties, directorates and units. There was great interest towards the colorful charity event at which proceeds will be donated to children. EMU Rector Prof. Dr. Necdet Osam also attended and contributed to the charity event where he visited all stands talking with EMU

personnel and students. The proceeds of the charity event aim to meet the needs of primary school level students for the 2018-2019 Academic Year.

The "Be a party to hope with EMU" project organized by the EMU Personnel Office Directorate will provide income for disadvantaged groups and children with a different activity each month. The project aims to lead to an increase in social cohesion and awareness as a result of university and community collaboration. The said project is also an example of the importance EMU shows to its values.

EMU'S OLYMPIC ATHLETE ESE BRUME OBTAINS NEW CHAMPIONSHIPS

Eastern Mediterranean University's (EMU) Nigerian athlete Ese Brume who came fifth at the Rio 2016 Olympic Games Long Jump competition and first at the 2014 Commonwealth Games returned from the Turkey Koç Fest Universities Sports Games with two first place titles.
